Assembly instructions

# Check list

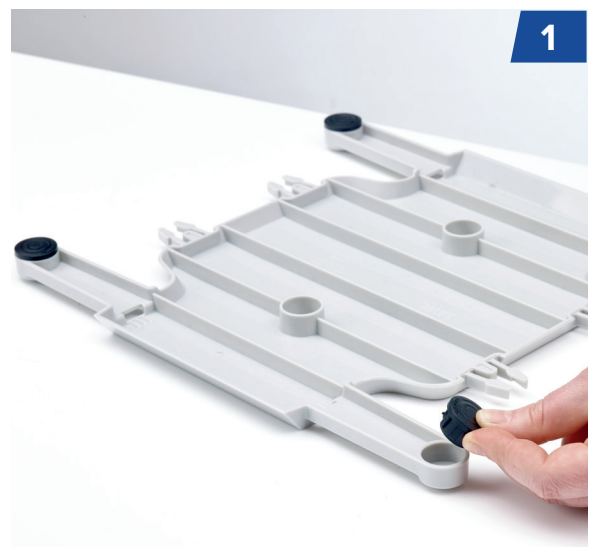

Before you start assembling your cage, please check if you have all the components.  
If any part is missing or damaged, do not use your cage.

- A 1 wire part (WKO0I5068)
- B 2 side panels (T010491)
- C 1 plastic tank (T010490)
- D 1 platform (T010493)
- E 1 ladder (T010494)

- F 1 exercise wheel (A0138)
- G 1 feeding bowl (T020145)
- H 1 water bottle + holder (A0161)
- I 1 connector for side panels (T010492)
- J 4 non-slip feet (T010092)

Instruction video

Insert the 4 non-slip feet into the underside of the connector.

2

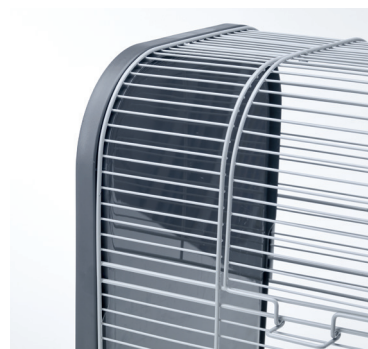

Take one of the two side panels and attach it to the connector.

Click

3

Attach the wire part to the side panel until it clicks. Ensure it is securely fastened. Attach the remaining side panel to the wire part and the connector.

4

Install the platform on the third wire.

5

Slide in the plastic tank below the platform.

6

Fill the bottle completely with water and attach it to the side of the cage, ensuring your hamster can easily access it from the side of the platform. Add the feeding bowl. Secure the exercise wheel to the wire part and attach the ladder to the platform.

7

Fill the plastic tank with litter and slide it into the base of your Geneva cage. Your Geneva is now ready for your hamster.

**Ensure the door is closed securely by placing its hooks over the second thick wire.**
